

Stainless Steel Pontoon Folding

Telescoping Ladder

POWER MARINE is Stainless Steel Pontoon Folding Telescoping Ladder manufacturer and supplier in China who can wholesale Stainless Steel Pontoon Folding Telescoping Ladder. We can provide professional service and better price for you. If you interested in

Stainless Steel Pontoon Folding Telescoping Ladder, please contact with us. We follow the quality of rest assured that the price of conscience, dedicated service. We have been specialized in stainless steel boat ladder for more than 25 years. Our ladders are all made of Marine grade stainless steel, The load capacity of the ladder reaches 250kg, which is the quality ensure for the ladders. Hope to build business relationship with you.

Stainless Steel Pontoon Folding Telescoping Ladder

1. Product Introduction

As the professional manufacturer, POWER MARINE would like to provide you high quality Stainless Steel Pontoon Folding Telescoping Ladder. And we will offer you the best after-sale service and timely delivery. We can provide professional service and better price for you. If you interested in Stainless Steel Pontoon Folding Telescoping Ladder, please contact with us. The stainless steel ladder is one of the essential parts of the boat. Marine grade stainless steel is our control of the quality of the ladder. A Ladder typically has individual steps or rungs, each of which provides a stable platform for stepping on or off the ladder

2. Product Parameter (Specification)

Product name	Stainless Steel Pontoon Folding Telescoping Ladder
Specification available	Multiple sizes
Standards that follow to	ISO 9001, CE, TUV, CSS, SGS.

Shandong Power Industry and Trade Co., Ltd.

Address: Chengyang District, Qingdao, Shandong Province, China

Tel: +86-15865772126

Boating and recreational water activities have been popular for centuries, with people using various types of Stainless Steel Pontoon Folding Telescoping Ladder or steps to climb in and out of boats or onto docks. In the early days, many ladders were made from wood or other materials that degrade easily in water environments. A new era in ladder design began in the early 20th century with the introduction of corrosion-resistant stainless steel alloys. Stainless steel offers exceptional durability, strength, and resistance to rust and corrosion, making it an ideal material for marine applications. The folding and telescopic features of these ladders were later introduced to enhance their convenience and functionality. The folding design facilitates storage and minimizes obstruction on the boat when the ladder is not in use. The telescoping feature allows users to adjust the ladder length to accommodate different water depths or platform heights. Over time, manufacturers have refined and refined the design of Stainless Steel Pontoon Folding Telescoping Ladder to meet the needs and requirements of boaters. The addition of non-slip steps, auxiliary handles and other safety features further enhances the usability and safety of these ladders. Today, Stainless Steel Pontoon Folding Telescoping Ladder are available in a variety of sizes, styles, and configurations to meet the varying needs of boaters. They remain a popular choice for those looking for a durable, reliable, and convenient ladder option for their pontoon boat.

Product Details

Stainless Steel Pontoon Folding Telescoping Ladder usually has the following characteristics:

Stainless Steel Construction: Made of high quality stainless steel, these ladders are corrosion-resistant and suitable for use in marine environments. Stainless steel ensures durability, longevity, and resistance to rust and corrosion.

Folding Design: These ladders feature a folding mechanism that allows for easy folding and storage when not in use. Folding design saves space on board and prevents obstruction.

Telescopic function: Thanks to its telescopic function, the Stainless Steel Pontoon Folding Telescoping Ladder can be extended or retracted. This allows the user to adjust the length of the ladder depending on the depth of the water or the height of the platform that needs to be reached.

Anti-slip steps: For safety, these ladders have anti-slip steps. These steps are often designed with a grooved or textured surface to provide traction and prevent slipping, even when wet.

Auxiliary handle: Some stainless steel pontoon folding telescopic ladders come with an auxiliary handle. These are handles or grips that are attached to the ladder frame to provide the user with additional support and stability when getting in and out of the water.

Mounting Hardware: These ladders often come with mounting hardware or brackets for easy installation on a pontoon boat or dock. This hardware ensures a safe and stable connection to your boat or dock surface.

Load Capacity: Stainless Steel Pontoon Folding Telescoping Ladder are designed to support a specific load capacity. Weight capacity can vary depending on ladder model and size, so it's important to choose a ladder that can safely accommodate the expected load.

These features make the stainless steel pontoon folding telescopic ladder convenient, durable and safe for

Loading & Shipment

Thanks to superior quality, we have been establishing a close & long business partner relationship with the customers from more than 30 countries, and we've gotten so many positive feedback regarding the quality.
